

SAFE★CLEAN★RIDE

SAFE.CLEAN.RIDE (S.C.R) - The Training and Certification Program designed to meet the Contagion-related Sanitation and Hygiene Awareness needs of the US Transportation Industry.

S.C.R's new training was created and tested by transportation and technology veterans, under the watchful guidance of a panel of medical experts to ensure it is scientifically sound and in full alignment with CDC guidelines.

S.C.R has been fully reviewed and endorsed by an esteemed panel of experts in virology, chemistry, cleaning protocols and transportation.

S.C.R certification provides companies, employees, and the public with ways to:

- ★ Educate our certificated members on the most current CDC information
- ★ Reduce lost worker hours from sickness and quarantine time
- ★ Mitigate risk due to work-place behavior and contagion spread
- ★ Protect you, your company and your employees from liability and lawsuits
- ★ Save money on your health insurance and business insurance premiums
- ★ Provides updates and certification to personnel throughout the year
- ★ Authenticate certification, updates, and verification through QR-codes

Dr. Amesh Adalja

Senior Scholar, Johns Hopkins Center for Health Security

"I have reviewed the coronavirus-related materials of SafeCleanRide, LLC and have found the materials they developed for their members to be robust and well suited to reducing the harm of this virus in transportation settings. Additionally, their desire to not only instill knowledge but measure the acquisition of that knowledge through formal assessment is remarkable."
